CAREER SUMMARY

Experienced Full Stack Developer with expertise in C#, ASP.NET, ReactJS, and PHP, combining a strong analytical mind with a creative approach to problem-solving.

I have a unique blend of analytical thinking and creative problem-solving skills, allowing me to craft full-stack solutions that are not only functional but also focused on product design and user experience.

My knowledge of both front-end and back-end technologies ensures seamless integration with APIs, databases, and third-party systems.

Committed to continuous learning, I enjoy solving technical challenges and collaborating with teams to bring high-quality software to life and achieve successful results in projects.

WORK EXPERIENCE

Software Developer — Tallina Sadam AS

2023

- Full stack development. Design and implement scalable web applications that improved internal workflows
- Scripting for data processing and analysis. Developing and optimizing scripts for automating data processing and monitoring
